composites

Published by Butterworth Scientific Limited

Index to volume 19 (1988)

No 1 (January) pp 1–88
No 2 (April) pp 89–176
No 3 (May) pp 177–260
No 4 (July) pp. 261–340
No 5 (September) pp 341–424
No 6 (November) pp 425–512

Abstracts

Abstracts of patents
81, 172, 253, 331, 419, 502
Abstracts/Résumés/Auszüge
14, 100, 188, 272, 350, 430
Literature survey
76, 170, 250, 328, 414, 495

New materials in aviation SP 490/682 490
Nondestructive testing of fibre-reinforced plastics composites, Volume 7 167
Proceedings of the symposium on damage development and failure processes in composite materials 325
Reinforced plastics for commerical composites: source book 248
Structural analysis of laminated anisotropic plates 411

Conference Reports

Combined sixth international and second European conference on composite materials 149
Flow processes in composite materials 409
Fourth international conference on composite structures (ICCS/4) 161
International conference: CADCOMP 88–Computer aided design in composite material technology 485
International conference on analytical and testing methodologies for design with advanced materials (ATMAM 87) 164
3rd International conference on fibre reinforced composites '88 407
International conference on composite materials: Advancing with composites 487
International conference: Polymers for composites 245
23rd Journées Européenes des composites 485

Research Reports

Residual strain mapping in carbon fibre/PEEK composites
C. Galiotis, N. Melanitis, D. N. Batchelder, I. M. Robinson and J. A. Peacock 321
SEM/XPS analysis of fractured adhesively bonded graphite fibre surface resin-rich/graphite fibre composites
T. A. De Vilbiss, D. J. Progar and J. P. Wightman 67

Titles

Titles are listed alphabetically, ignoring definite and indefinite articles

Changes in physical and mechanical properties of carbon fibre-reinforced polyfurfuryl alcohol composites during their pyrolysis to carbon/carbon composites
L. M. Manocha 311
Composite tooling for composite components
H. Vangerko 481
Corrosion of an aluminium alloy-mica particulate composite in 3.5% NaC1
D. Nath and T. K. G. Namboodhiri 237
Crystallization and processing behaviour of the polyamide J-1 polymer and composites reinforced with Kevlar fibre
W. J. Lee, B. Fukai, J. C. Seferis and I. Y. Chang 473
Damage sustained by a carbon/epoxy composite material subjected to repeated impact
D. A. Wyrick and D. F. Adams 19
Development of a pilot autoclave for polymeric diaphragm forming of continuous fibre-reinforced thermoplastics
P. J. Mallon and C. M. O'Bradaigh 37
The development of a repeated drop-weight impact testing apparatus for studying FRC materials
B. Barr and A. Bouamrata 453
Effect of fibre orientation and boundary conditions on the vibration behaviour of orthotropic rhombic plates
S. K. Malhotra, N. Ganesan and M. A. Veluswami 127
Effect of high temperature spikes on a carbon fibre-reinforced epoxy laminate
T. A. Collings and D. L. Mead 61
Effect of hydrostatic pressure on the water absorption of glass fibre-reinforced epoxy resin
A. Avena and A. R. Bunsell 355
Effect of load duration on the fatigue behaviour of graphite/epoxy laminates containing delaminations
D. S. Saunders and T. J. van Blaricum 217
Effect of loading rate on tensile strength of fibrous composites
C. Lhymn, Y. Lhymn, R. Peckens and J. Young 295
The effect of particulate agglomeration and the residual stress state on the modulus of filled resin. Part 1. Modulus of untreated graded sand-filled composite
S. Ahmed and F. R. Jones 277
Effect of selective adhesive interleaving on interlaminar fracture toughness on graphite/epoxy composite laminates
O. Ishai, H. Rosenthal, N. Sela and E. Drukker 49
Effects of hole stress concentration and its mitigation on the tensile strength of sheet moulding compound (SMC-R50) composites
P. K. Mallick 283
Effects of temperature on stress-rupture times in glass/polyester laminates
G. Pritchard and S. D. Speake 29
Establishing the criteria for selecting suitable interlayer material for double-layered filament-wound CFRP structures
Jhumur Lahiri, G. Rohini Devi, S. V. Subrahmanyam and K. Balakrishna 376
Evaluation of polymer composites for sliding and abrasive wear applications
M. Cirino, K. Friedrich and R. B. Pipes 383
An examination of failure strength in [0/±60] laminates under biaxial stress
S. R. Swanson and B. C. Trask 400
The failure of optical fibres embedded in composite materials
S. R. Waite and G. N. Sage 288
Fatigue damage compliance relationship with GRP
N. Naeem 443
Fatigue crack propagation in short and long fibre-reinforced injection-moulded PA 6.6

composites
J. Karger-Kocsis and K. Friedrich 105
Fatigue testing of multi-angle laminates of CF/PEEK
D. C. Curtis, D. R. Moore, B. Slater and N. Zahlan 446
Fibre anisotropic thermal expansion and residual thermal stress in a graphite/aluminium composite
M. Vedula, R. N. Pangborn and R. A. Queeney 55
Finite element modelling of fibre cement corrugated sheeting
A. Baroonian and J. G. Keer 139
Flexed plate impact, Part 7. Low energy and excess energy impacts on carbon fibre-reinforced polymer composites
P. E. Reed and S. Turner 193
Fractography of fibre-reinforced thermoplastics, Part 3. Tensile, compressive and flexural failures
D. Purslow 358
High pressure squeeze casting of stainless steel wire reinforced aluminium matrix composites
R. B. Bhagat 393
Matrix fractography of fibre-reinforced thermoplastics, Part 2. Shear failures
D. Purslow 115
The mechanical properties of compression moulded reconstituted carbon fibre-reinforced PEEK (APC-2)
G. C. McGrath, D. W. Clegg and A. A. Collyer 211
Mechanical testing of toughened resin composites materials
S. Lee, R. F. Scott, P. C. Gaudert, W. H. Ubbink and C. Poon 300
Modification of residual thermal stress in a metal-matrix composite with the use of a tailored interfacial region
M. Vedula, R. N. Pangborn and R. A. Queeney 133
Optimization of CFRP laminate dynamic properties using combinations of short/continuous fibres and stiff/flexible resin matrices
T. A. Willway and R. G. White 205
The role of non-destructive testing in the airworthiness certification of civil aircraft composite structures
A. Mahoon 229
Thermal modelling of tape laying with continuous carbon fibre-reinforced thermoplastic
S. M. Grove 367
The use of optical fibre for damage and strain detection in composite materials
S. R. Waite, R. P. Tatam and D. A. Jackson 435
Use of time-of-flight C-scanning for assessment of impact damage in composites
T. E. Preuss and G. Clark 145
Vibration of orthotropic square plates having variable thickness
S. Malhotra, N. Ganesan and M. A. Veluswami 467
